Fantastic. Would it need any editing to be able to be distributed to the public?

Alexia

PSC has an updated map developed. No need to develop another one.

Subject: Request from the public for an updated Oil Situation Map

The last map published for Refugio was June 19 (link here <http://www.refugioresponse.com/go/doc/7258/2547198/>)

Members of the public are asking if there is an updated map that would could post in light of the Phases of Cleanup document being posted.

PIO would like to ask the UC if it would approve the development of an updated map showing current status of the cleanup.

Please advise. Thank you.
